

The NEW SHUFFLE KING II Electronic card shuffler

the next level

Shuffling of cards will be accomplished in a single cycle. Cards are randomly distributed to 52 trays one by one, and they are subsequently lifted to the position for withdrawal. Each card is counted; the total number is shown on display. If there is a different number than 52, operator is notified of a wrong card number in the inserted pack.

-For 1 Deck of Cards

-One shuffling cycle takes 35 sec.

-Controls the number of cards in a pack

-Increases the game's productivity

-Easy handling

-GLI-29 compliant
